

Fall Protection Training & Certification

Onsite training that builds safe, competent and confident workers.

We come to you. Your workers train on the systems they actually use.

Why train with PWST

- Delivered at your workplace, on the equipment and systems your people actually use.
- Scheduled around your operation: days, evenings, midnights or weekends.
- Training is delivered onsite and tailored to your equipment, work environment and fall hazards.
- Digital diploma and wallet-size certificate issued for every successful participant.
- Training meets the fall protection training requirements of Part 14 (Fall Protection) of the Manitoba Workplace Safety and Health Regulation.

What your workers learn

- Risk evaluation and safe work procedures
- Fall protection systems: guardrails, surface protection and travel restraint
- Fall arrest systems and equipment inspection
- Fixed ladders, aerial devices and work platforms (if applicable)
- Roof work, steel erection and residential construction (if applicable)
- Workplace safety and health legislation
- Hands-on equipment and workplace inspection

Course at a glance

LENGTH

Approximately 1 day.

CERTIFICATION
