

Novice Operator Training & Certification

Two days of hands-on training for operators with less than 8 hours of operating time.

Forklifts, skid steers, front end loaders, excavators and other mobile equipment.

Why train with PWST

- Delivered at your workplace, on your own equipment and in your work environment.
- Small groups, so every new operator gets real seat time.
- Extra supervised practice builds safe operating habits before the evaluation.
- Scheduled around your operation: days, evenings, midnights or weekends.
- Digital diploma and wallet-size certificate issued for every successful operator.
- Meets the operator training requirements of Part 22 (Powered Mobile Equipment) of the Manitoba Workplace Safety and Health Regulation.

What new operators learn

- Equipment components, controls and characteristics
- Reading data plates and using safety equipment
- Safe operating fundamentals and load handling
- Pre-shift inspections, fuelling and battery safety
- Handling emergencies
- Workplace safety and health legislation
- Hands-on operating evaluation (driving test)

Course at a glance
