

Overhead Crane Operator Training & Certification

Onsite training that builds safe, competent and confident operators.

We come to you. Your operators train on your own overhead cranes, at your site, on your schedule.

Why train with PWST

- Delivered at your workplace, on the equipment and systems your people actually use.
- Scheduled around your operation: days, evenings, midnights or weekends.
- Training is delivered onsite and tailored to your equipment, work environment and operating expectations.
- Digital diploma and wallet-size certificate issued for every successful participant.
- Training meets the operator training requirements of Part 23 (Cranes and Hoists) of the Manitoba Workplace Safety and Health Regulation.

What your operators learn

- Overhead crane components, controls and characteristics
- Load limits, capacities and load handling
- Slinging and rigging techniques
- Chains, spreader bars, grabbers and other attachments
- Pre-shift and workplace inspections
- Handling emergencies and workplace hazards
- Hands-on evaluation and competency test

Course at a glance

LENGTH

Approximately 4 to 6 hours. Depending on experience, additional time may be required.

CERTIFICATION

Valid for 3 years.

WHO IT IS FOR

Workers who operate overhead cranes or hoists. An overhead crane must be on site for the training.

GROUP SIZE

A 4-person minimum charge. Groups of 8 to 16 are booked as one session.
