

Rigging and Slinging Training & Certification

Onsite training that builds safe, competent riggers and signal persons.

We come to you. Your crews train with the slings, hardware and loads they actually use.

Why train with PWST

- Delivered at your workplace, with the rigging gear and lifting equipment your crews actually use.
- Scheduled around your operation: days, evenings, midnights or weekends.
- Goes deeper than the rigging covered in our Overhead Crane and Mobile Crane courses.
- Digital diploma and wallet-size certificate issued for every successful participant.
- Built around Part 23 (Cranes and Hoists) of the Manitoba Workplace Safety and Health Regulation.

What your workers learn

- Rigging hardware: slings, shackles, hooks, eyebolts and spreader bars
- Sling types, hitches, sling angles and working load limits
- Estimating load weight and finding the centre of gravity
- Inspecting rigging gear and removing damaged equipment
- Hand signals and communication with the operator
- Safe lifting, load control and tag lines
- Practical rigging exercises and evaluation

Course at a glance

LENGTH

Approximately 6 to 8 hours.

CERTIFICATION

Valid for 3 years.

WHO IT IS FOR

Workers who rig, sling or signal loads for overhead cranes, mobile cranes, hoists and other lifting equipment.

GROUP SIZE

A 4-person minimum charge. Groups of 8 to 16 are booked as one session.
