Arc Flash Training & Certification

Hands-on CSA Z462:24 electrical safety training that keeps your crews safe.

We come to you. Your workers train with real arc-rated PPE, test meters and your own labels.

Why train with PWST

- Hands-on: every worker inspects and dons arc-rated PPE, air-tests rubber gloves and proves dead.
- Built on CSA Z462:24 and Part 38 (Electrical Safety) of the Manitoba WSH Regulation.
- Delivered at your workplace, using the arc flash labels on your own equipment.
- Scheduled around your operation: days, evenings, midnights or weekends.
- Digital diploma and wallet-size certificate for every successful participant.

What your workers learn

- How shock, arc flash and arc blast injure workers
- Employer, supervisor and worker duties (Part 38)
- Qualified vs. unqualified workers and risk controls
- Live–dead–live testing and lockout
- Approach boundaries and arc flash risk assessment
- Reading arc flash labels and choosing the right PPE
- Energized work permits, job briefings and emergency response

Course at a glance

LENGTH
One full day (about 7 hours of instruction).

CERTIFICATION
Valid for 3 years, matching the CSA Z462 retraining interval.

WHO IT IS FOR
Electricians and apprentices, maintenance, HVAC and instrument technicians, operators who work near electrical equipment, and their supervisors.

GROUP SIZE
Up to 16 people per session. 4-person minimum charge.

WHERE
Winnipeg, Brandon, Steinbach, Thompson, Kenora and surrounding areas, and across Manitoba, Northwestern Ontario and Eastern Saskatchewan.

Already trained?

Workers trained within the last 3 years can take our 4-hour refresher, updated for CSA Z462:24.

Group rates available. Call for a quote.
